Coronavirus Disease 2019 (COVID-19)

The Cal OES State Operations Center (SOC) activated 03/02/20 at 0700 hours in support of the California Department of Public Health (CDPH) Medical Health Coordination Center's (MHCC) statewide response to COVID-19. Cal OES will continue to provide resource coordination for the COVID-19 event, as well as situation status reporting and advance planning across multiple areas.

Situation Overview

- **California State of Emergency Proclamation**

On 03/04/20, Governor Gavin Newsom declared a State of Emergency for California, as a result of the global COVID-19 outbreak that began in December 2019, to make additional resources available, formalize emergency actions already underway across multiple state agencies and departments, and help the state prepare for broader spread of COVID-19.

- **Executive Order N-33-20**

On 03/19/20, the California State Public Health Officer and Director of the California Department of Public Health ordered all individuals living in the State of California to stay home or at their place of residence, except as needed to maintain Continuity of Operations of the Federal critical infrastructure sectors.

- **Global Health Advisory**

On 03/19/20, the U.S. Department of State issued a Global Health Advisory at Level 4 (Do Not Travel) due to the global impact of COVID-19.

- **FEMA-4482-DR-CA**

On 03/22/20, President Trump approved Major Declarations FEMA-4482-DR-CA (DR-4482) for the COVID-19 Pandemic.

Confirmed Global COVID-19 Cases – Per Worldometers COVID-19 Live Updates as of 10/04/20 at 1000 hours:

- 35,243,149 (+284,462) total confirmed cases in 213 countries
- 1,039,463 (+4,461) total deaths

Confirmed United States COVID-19 Case – Per Centers for Disease Control and Prevention (CDC) as of 10/04/20 at 1100 hours:

- 7,359,952 (+49,327) total confirmed cases
- 208,821 (+703) total deaths

Confirmed California COVID-19 Cases - Per Medical Health Coordination Center as of 10/04/20 at 1100 hours:

- 823,729 (+4,293) total confirmed cases

- Please see attached California Health & Human Services (CHHS) Agency / Cal OES Joint Situation Report for additional details.

SITUATION SUMMARY

Cal OES SOUTHERN REGION (Continued)

Earthquake Swarm, Westmoreland, Imperial County

On Wednesday, 09/30/20, a series of earthquakes began at approximately 1500 hours near the city of Westmoreland located south of the Salton Sea, Imperial County.

- Per the USGS, the swarm continues to show a small amount of activity, with two more magnitude 3 and larger earthquakes recorded yesterday 10/03/2020. There have been 64 magnitude 3 and larger earthquakes since the beginning of this swarm, most of which (48) occurred in the first burst of activity on the evening of 09/30/2020.
 - USGS will continue to produce forecasts throughout the weekend. Forecasts will be posted by 0830 hours daily.
 - A copy of the full earthquake forecast can be found here: <https://www.usgs.gov/center-news/earthquake-forecast-westmorland-swarm-beginning-sept-30-2020>
- As of 10/04/20 at 1515 hours, there have been a total of 364 M2.0 and higher earthquakes with the largest being a M4.9. – no change since 0800 hours today.
 - The earthquake swarm magnitudes breakdown as follows:
 - M4.0 - M4.9: 7
 - M3.0 - M3.9: 70
 - M2.0 - M2.9: 287
- The following three scenarios describe possibilities of what could happen from 4 October to 11 October – there has been no change in probabilities since yesterday's forecast. Only one of these scenarios will occur within the next week. These scenarios include the possibility of earthquakes on and off the Imperial and San Andreas Faults.
 - Scenario One (Most likely: 97%): Earthquakes continue, possibly including earthquakes up to magnitude 5.4. The most likely scenario is that the rate of earthquakes in the swarm will decrease over the next 7 days. Some additional moderately sized earthquakes (M4.5 to 5.4) may occur, which could cause localized damage, particularly in weak structures. Smaller magnitude earthquakes (M3.0+) may be felt by people close to the epicenters.
 - Scenario Two (Less likely: 3%): A larger earthquake (magnitude 5.5 to 6.9) could occur within the next 7 days. A less likely scenario is a somewhat larger earthquake could occur (up to a M6.9). Earthquakes of this size could cause damage around the area close to the earthquakes that have already occurred and would be followed by aftershocks that would increase the number of smaller earthquakes per day. This scenario occurred in a previous swarm in the area – in 1981, when a swarm in this region included a magnitude 5.8 earthquake.
 - Scenario Three (Least Likely: approximately 1 in 1000): A much larger earthquake (magnitude 7 or higher) could occur within the next 7 days. A much less likely scenario, compared with the previous two scenarios, is that the ongoing swarm could trigger an earthquake significantly larger than the M4.9 that occurred on the 30 September (i.e., M7.0 and above). While this is a very small probability, if such an earthquake were to occur, it would have serious impacts on communities nearby and would be followed by aftershocks that would increase the number of smaller earthquakes per day.
- The EQTP Duty Officer will continue to monitor and provide updates as warranted.

WEATHER KEY POINTS

10/04/20 - 10/10/20

Sunday-Thursday

- Elevated fire weather conditions expected across many foothills and mountains each afternoon due to locally gusty winds and low humidity
 - A period of critical fire weather conditions is expected for Modoc County this afternoon where winds will be stronger, gusting to 25-30 mph at times
- Above normal temperatures continue statewide through Tuesday, with a gradual cool down by Thursday for central and northern California
- Areas of poor air quality and smoke also continue
- Stronger winds possible by Thursday which could lead to additional fire weather concerns

Friday-Saturday

- Strong winds could lead to localized critical fire weather conditions over parts of the state Friday, ahead of an approaching storm system
- Increasing chances for precipitation across central and northern California by Friday night and into the weekend
- Notably cooler temperatures arriving by late week and into the weekend

Cal OES LAW ENFORCEMENT MISSIONS

Cal OES Law Missions

- **2020-LAW-43000, 09/19/20, 1016 hours:** Cal OES Law Duty Chief (LDC) received a request from Cal OES Inland Region for 30 CNG personnel to assist Butte County with animal care operations. LDC contacted Butte County and was informed they had exhausted all local and regional resources. **Update, 1204 hours:** Butte County advised they had conducted outreach several times for animal operations and were not successful. Butte County advised volunteer resources are limited and they are not accepting non-organizational volunteers due to lack of background checks for the volunteers that would be caring for the animals. They also indicated that volunteer resources were limited.
